

Southern Company and its subsidiary Gulf Power are claiming that these reports and other materials contain “Confidential Business Information”. While EPA is working to resolve these claims with the company, the reports and other materials will not be posted. However, each unit and its structural integrity and hazard potential rating will be listed in the summary table [link to: <http://www.epa.gov/solidwaste/nonhaz/industrial/special/fossil/surveys2/index.htm>] available in the Coal Combustion Residuals Impoundment Assessment Reports section.
